## Low Level Laser Therapy & Regrowth clinical research

Hair Regrowth and Low Level Laser Therapy

**Int'l Journal of Cosmetic Surgery and Aesthetic Dermatology**, Vol. 5, Number 2, 2003

John L. Satino and Michael Markou, D.O.

"The authors wished to confirm the efficacy of low level laser therapy (LLLT)... Both hair counts and tensile strength of hair were affected very beneficially in both sexes in the temporal and vertex regions, with males and vertex areas showing the most improvement..."
