

Low Level Laser Therapy & kidney stones clinical research

The use of laser radiation and sinusoidal modulated currents in the therapy of patients with chronic calculous pyelonephritis

Vopr Kurortol Fizioter Lech Fiz Kult. 1999 Jul-Aug;(4):24-5. Nesterov NI, Li AA, Vasil'eva MF, Slepushkina TG, Derevnina NA.

The authors present a technique of treating chronic calculous pyelonephritis with laser radiation and sinusoidal modulated currents which promotes a complete elimination of the calculus fragments in 100, 70 and 50% of the patients in the stone size 0.2-0.5 cm, 0.5-0.7 cm and > 7 cm, respectively. This combined therapy had also antiinflammatory, and immunity-stimulating effects.
